### Notice to Competitors

**DOCNA and Bouncin' Bowsers reserve the right to refuse any entry. Every entrant must be in good standing with DOCNA and Bouncin' Bowsers.**

All dogs competing **must** have a DOCNA Registration Number, which can easily be done online. See [www.docna.com](http://www.docna.com) for more info. We must have a correct DOCNA Registration Number on file for every dog that exhibits in the trial.

Please take responsibility for your dogs and children. Any exhibitor whose dogs or children create unnecessary disturbances or engage in unsafe or disruptive behavior may be asked by the Trial Committee to leave the trial site. You are responsible for any damage done by your dog or children.

**Use of site:** This is an alcohol-free site. Please park in designated parking areas only. Please keep your dog on leash, at all times other than when preparing to run, running and while using the designated warm-up area if your dog is reliable.

Competitors, by filling out the entry form, agree to compete using Dogs on Course in North America, LLC rules, and agree to follow the rules of the Trial Committee. The DOCNA rulebook is available to read and print online at [www.docna.com](http://www.docna.com). DOCNA leaves it up to the exhibitors as to whether or not they would like to leave collars on their dogs during competition. For the purposes of safety, DOCNA strongly recommends that dogs run WITHOUT a collar. There have been documented cases of dogs getting collars stuck on jump stanchions or contact equipment hinges. If you choose to run with a collar, you do so at your own risk. This policy will be evaluated from time to time to determine if there is any safety implications associated with competing while wearing a collar. Collars with dangling tags, martingale type loops, halti's, gentle leaders, and harnesses will not be allowed in the ring. A judge who feels a collar does not fall within DOCNA standards or is otherwise unsafe will have the authority to request that the exhibitor remove it from the dog or not run. Please see the official rulebook at [www.docna.com](http://www.docna.com) for additional rules regarding collars.

The following are not allowed at the trial site: flexi-leads, shock collars, bark collars, pinch collars, electronic training collars, or devices.

There will be no refunds for entries withdrawn after the closing date or in the event that a dog and/or handler are dismissed from competition, regardless of the reason for such dismissal. A withdrawal from the competition after the closing date due to a bitch coming into season **after the closing date** will be eligible for a refund up to 75% of the total entry fee paid. A veterinarian's notice **will be required** for a refund. If the trial cannot open or be completed by reasons of riots, civil disturbances, fire or act of God, public emergency or act of public enemy, or any other cause beyond the control of the organizing committee no entry fee will be refunded.

**Measuring of Dogs**

Owners are responsible for entering the proper jump height division. Measurement forms are available on line at [www.docna.com](http://www.docna.com) and will be available at the trial. Measuring will take place before the first briefing daily. If your dog requires measurement, you must be available during these times. Any dog that measures within ½ inch of their jump height cutoff will require an official measurement by the show judge of record in order for the dog to be allowed to compete **unless** the owner/handler can show that they have completed the requirements of the measurement form or obtained a permanent height card from DOCNA. (DOCNA measurement forms are available online at [DOCNA.com](http://DOCNA.com) and will be available at check-in). **Note: If your dog is over 2 years old, DOCNA will accept a copy of any jump height form or card from another organization that specifies an exact height of the dog (ex. 20.25 inches). No measurement will be required.**

(Measured Competition Division Height + 4) SCT + XX% (Division) = time

If a handler chooses to have a dog jump lower than his measured/registered jump height as allowed in Veterans only, the equivalent Competition Jump Height for that chosen height is used. For example, a dog measured to run 16 inches in Competition runs 8 in Veterans instead of the usual 12 - the SCT used will be the SCT for a 12-inch dog. ## Events

**Standard Agility Event** - Standard Agility will challenge the handler /dog team with both work away sections and close proximity handling challenges. The handler/dog team must demonstrate the ability of the team to perform a variety of obstacles on the course while working as a smooth functioning team. All obstacles must be performed without fault and the team must meet the Standard Course Time requirements of the division and level.

**Jumpers** - Jumpers is an opportunity for the dog and handler team to maneuver through a course of jumps at a very fast pace. The only obstacles on a Jumpers Course are **jumps**. Jumpers Courses will challenge the handler/dog team by having both work away sections and close proximity handling challenges. **Traditional Gamblers** - Traditional Gamble is an event that allows the handler/dog team to plan their own course, obtaining points along the way for completing obstacles up to 2 times each successfully for the specified opening period. At the end of the point accumulation period, the dog must successfully complete a work away challenge (gamble) at the required distance for level and division, and then stop the clock for time. The handler/dog team must be successful in both parts of this event to qualify.

**Strategic Time Gamble** - Strategic Time Gamble is an event that allows the handler/dog team to plan their own course, obtaining points along the way for completing obstacles up to 2 times each successfully. There are two (2) parts to this event, a point accumulation period (opening) and a strategic gamble period (closing); the handler plans a course that will allow the dog to cross the finish line at as close to maximum time without going over time. The handler/dog team must be successful in both parts of this event in order to qualify.

**Trigility** - Trigility is a team strategy game that tests the agility ability of the 3 members of the team to complete 3 types of agility on a regular agility course. The goal is to complete all 3 courses in the shortest amount of time and to have one team member successfully complete a mini gamble test. Competitors may team up with any handler/dog team at their Level (Beginner, Intern or Specialist) regardless of Division. Placement jump height is determined by the Competition Division height of the tallest dog on the team. All dogs must start at the Beginner level in Trigility. When entering Trigility, keep in mind that it is a team sport and as a competitor, you have an obligation to run and not let your teammates down by training in the ring or by scratching except in the event of an illness or injury. **By entering this class, you are agreeing that your dog is reasonably proficient enough in agility to be able to negotiate a 9-10 obstacle sequence on a beginner level jumpers or standard course with two other dogs/handlers in the ring with you. You also understand that if you enter as a draw, you may be running with a dog and/or handler that is brand new to the sport of agility.**

**North America Challenge Event – Championship Qualifiers** - The North America Challenge Event will be the standard for qualification into future championships. This special agility class is scored under the same rules and SCT as Standard Agility with the exception that off courses are judged as elimination. North America Challenge Events will be more technically challenging courses. Each course will include one set of 10-12 weaves and may include an additional set of 5-6 weaves for all levels. In addition, courses may include the performance of four contact obstacles, multiple side changes; The North American Challenge is a special event, which gives the handler and dog team the opportunity to compete in the DOCNA championships in 2009. For anyone entering the North American Challenge, Dogs that are competing in Standard Agility at the Elite Level in NADAC Masters in USDAA, Excellent in AKC, Level 5/C in CPE etc, should enter the North American Challenge at the Specialist Level in the Division they are choosing to run in Competition, Select, Veteran, Jr. Handler or Grand Veterans. All other competitors should enter at the Intern Level (this includes beginners).

**Please read the rules for 2010 Qualification requirements located [www.docna.com](http://www.docna.com).**

## Levels

**Your dog may be eligible to enter these games at a higher level.**

**Please see [www.docna.com](http://www.docna.com) for information on Grandfathering in at Level.**

**Beginner:** The Beginner level is the first experience level in all divisions. Its purpose is to offer a successful experience and a reasonable level of challenge for the beginning dog. Within each division and titling event, the Beginner level is open to any dog that is at least 12 months old who has not recorded a qualifying round in the Specialist level for that titling event.

**Intern:** The Intern level is the middle experience level in all divisions. Its purpose is to offer challenges that demonstrate dog responsiveness on obstacles and competitor confidence with a variety of handling techniques at a greater rate of speed. Within each division and titling class, the Intern level is open to any dog that has earned a certificate of merit (title) at the Beginner Level for that titling event and is at least 15 months old.

**Specialist:** The Specialist level is the top experience level in all divisions. Its purpose is to offer **\*\*advanced\*\*** agility challenges that require a variety of handling techniques and demonstrate dog and handler teamwork at the highest rate of speed. Within each division and titling event, the Specialist level is open to any dog that has earned a certificate of merit (title) at the Intern Level for that titling event and is at least 15 months old.

## Divisions

### Competition Division

The Competition Division is the most demanding division for both the dog and handler. The division Jump heights are 8", 12", 16", 20" and 24" and double jumps may be used at the Intern level and double and triple jumps may be used at the Specialist level. This division is also the most demanding in terms of standard course times in each event.

Entry Eligibility - Any physically capable dog over the age of 15 months may enter the Competition Division.

### **Select Division**

The Select Division is somewhat less demanding than the Competition Division. Jump heights are reduced to 4", 8", 12", 16" and 20" in the Select Division. No Double Jumps. Standard course time for the Select Division will be 15% more than the Competition Division standard course times in each event.

Entry Eligibility - Any physically capable dog over the age of 12 months may enter the Select Division.

### **Veterans Division**

The Veterans Division is for those dogs that have reached 7 years of age, but are still physically capable of doing competitive agility or dogs being handled by anyone 60 years of age or older. Jump heights are 4", 8", 12", 16" and 20" in the Veterans Division. No double or triple jumps may be used. Standard course time for the Veterans Division will be 20% more than the Competition Division standard course times in each event. Please see rules at [www.docna.com](http://www.docna.com) for special circumstances for jump heights called "Veteran Dog Opportunity".

Entry Eligibility - Any physically capable dog 7 years old or older or any physically capable dog that is handled by a competitor that is 60 years old or older may enter the Veterans Division.

### **Grand Veterans Division**

The Grand Veterans Division is for those dogs that have reached 10 years of age, but are still physically capable of doing competitive agility or any handler 60 years old or older handling a physically capable dog 7 years old or older. Jump heights are reduced to 4", 8", 12", and 16" in the Grand Veterans Division. Competitors/handlers entering the Grand Veterans Division must choose to jump their dog at least 4 inches lower than their Select/Veteran jump height. Standard course time for the Grand Veterans Division will be 25% more than the Competition Division standard course times in each event.

Entry Eligibility - Any physically capable dog 10 year old or older or any handler 60 years old or older handling a physically capable dog 7 years old or older may enter the Grand Veterans Division.

### **Junior Handler Division**

The Junior Handler Division is geared towards encouraging younger handlers to be involved in the sport. Jump heights are reduced to 4", 8", 12", 16" and 20" in the Junior Handler Division. No double or triple jumps may be used. Standard course time for the Junior Handler Division will be 20% more than the Competition Division standard course times in each event.

Entry Eligibility- Any physically capable dog handled by a competitor who is between the ages of 7 and 16 years of age may enter the Junior Handler Division.

While we generally believe that 7-8 years of age is the optimal age for a handler to start competing, we also recognize that there are some exceptional kids who may be ready to compete earlier than 7 years of age. Competitors who are younger than 7, but have titled a dog in another venue may also enter this division. In addition, any parent/guardian who feels strongly that their child is ready to compete may contact DOCNA ([www.docna.com](http://www.docna.com)) and provide information on age of child, training that their child has done, experience of their child, experience of the child's dog, etc, and DOCNA will review the situation and approve on a case by case basis. Juniors (ages 7 and older) may compete in other divisions and will be given same SCT as posted.

### **Physically Challenged Dogs**

Physically Challenged Dogs mainly includes, but is not limited to, canine amputees, visually or hearing compromised dogs. Our primary concern is for the safety of the dog. We acknowledge that canine health encompasses both the physical and the mental aspects of life. Physically challenged dogs that may otherwise be in good health and that display the desire and ability to safely execute required obstacle performances are welcome to enter and compete.

Entry Eligibility- Canine amputees should acquire a letter from their veterinarian stating that the dog is capable of competing in agility and that the dog will not likely suffer any long term affects above and beyond what might be normal for dogs that engage in this sport. The letter should be available on request for view by the judge or trial committee. A judge and/or trial committee reserves the right to excuse/dismiss a dog from competition that appears to be in obvious pain or discomfort and/or to designate that a dog be limited to specific classes and/or be placed under a jump height restriction. The owner of the dog may appeal a judge's/appointee's trial decision to the DOCNA offices for a binding ruling.

DOCNA supports the desire of these dogs to play in agility and allows these dogs with the opportunity to earn qualifying runs and titles, but placements are not appropriate in this category. Dogs competing at a jump height lower than the official jump height for their size may not achieve a placement over a dog jumping at its correct jump height.

For Physically Challenged Dogs competing in the correct division and jump height that have visual or hearing challenges but have demonstrated the ability to perform at a higher level by either having competed in another venue or have completed training that establishes the team as safe to compete physically at a higher level are approved to compete in the division that they are eligible for and will compete with dogs in that Division and Height.

### **Disabled/Handicapped Designation**

Dogs On Course in North America, LLC is providing a special designation for disabled/handicapped exhibitors. Such exhibitors will be allowed extra time for qualifying purposes only. There will be a place on the entry form to designate this category. When entering as a disabled/handicapped handler, it is required that you enter all events with this designation. Dogs entered with handlers in this category will still be placed with the dogs jump height. The best time/most points will always place higher. DOCNA trusts that only exhibitors who have documented medical conditions will enter this category.

Disabled/handicapped handlers will receive additional time in titling events.

## **NEW MEASUREMENT POLICY**

If you have not already turn in your **completed** measurement form or purchased a laminated height card, please bring your completed height card to the trial this trial. Bring the original form, not a copy.

DOCNA is implementing a new measurement process that will give each competitor a permanent height card. For all newly measured dogs and for anyone who has not purchased a laminated permanent height card for their dogs, DOCNA will be replacing them with a permanent height card via email. The option of purchasing a laminated permanent height card will remain available.

We will be collecting them at check-in and sending them to DOCNA and they will be generating your new permanent height card, which you should receive as an email attachment in approximately 10 days after the paperwork is received in the mail. We will also be requiring you to verify your address, phone number, and email address listed on the exhibitor list so that we may send any changes to DOCNA.

**VERY IMPORTANT:** If you have lost your completed measurement form, you must be re-measured at the trial. If you have to re-measure, we will be verifying that you are jumping the correct height at that time.
